MTPE and CAT Tools

🕒 Duration: 20 hours

Overview: This online course is intended for graduates and translators who are seeking to master translation technology. It covers the latest translation technology, best practices in using them, and practical exercises to put what you learn into practice.

- 📌 Learn about the evolution of translation mechanisms and workflows over time
- 📌 Understand the key technological innovations needed to support your translation process
- 📌 Learn the features of Cleverso Program (the first translation management system developed for the Arabic language)
- 📌 Learn how to use CleverSo to reduce time and increase productivity
- 📌 Learn the features of Tarjama Machine Translation Engine and best practices on how to perform MTPE

About Tarjama's Certified Translation Masterclass

Training is a key enabler to accelerate your career in translation

Our Masterclass goes beyond theoretical education — we believe a student can only learn by doing, and by putting theories into practice.

Using our years of translation experience, top-expert linguists and language technology, we've developed all-encompassing curriculums to train translators in EN<>AR translation so they can excel in the current labor market.

Who is it for?

Who We Are

Leader in Translation & Language Technology Across the Arab Region
